Trish Mathers

Entry-Level Data Scientist

tmathers@email.com   (123) 456-7893   Bellevue, WA   [LinkedIn](#)

Innovative and scientifically rigorous graduate with significant data science internship experience to bring to the table. With a team-oriented attitude, I'm eager to contribute my abilities in quantitative modeling and experimentation to enhance the experience of global Pinterest users.

WORK EXPERIENCE

Data Scientist Intern- Niantic

2022 - 2023   Boston, MA

- Developed a program in SAS that automated refinement of linear regression models for specific segments of a customer base that saved 22 hours of labor per month.

EDUCATION

Seattle University - B.S. Mathematics and Economics,

2019 - 2023   Cambridge, MA

SKILLS

Programming: SAS (base SAS and Macros), SQL

Supervised Learning: linear and logistic regressions, decision trees, support vector machines (SVM)

Unsupervised Learning: k-means clustering, principal component analysis (PCA)

Data Visualization: Excel, Google Sheets
